The 3-7Yr races will take place on the lower slopes of the hill, whilst Yr8 and above will complete 1 ascent close to the Trig point in their 3k event.

The senior course is of a Grade 'B' short course standard and is marked and marshalled. It is a demanding run and it is therefore essential that competitors are both medically and physically fit. Runners must ensure they wear suitable footwear. The course is rutted in places, with badger scrapes, rabbit holes and flint. It can also be slippery on bare chalk and if the grass is wet. If the conditions are dry then trainers, road shoes and off road studs (not football) will be suitable. In wet conditions off road studs are recommended, although road shoes with plenty of tread will suffice, but caution will be needed, as with all shoes at all times.

No Spikes Will Be Allowed. Any runners caught will be disqualified.

Please note that in the Event of inclement weather the Race Director reserves the right to shorten the course for the health and safety of runners and marshals.
